Interdental Brushes
A Reference List of Scientific Articles

The effect of different methods of interdental cleaning.
Gjermo P, Flötra L.

The interdental brush and its place in operative and crown and bridge dentistry.
Waerhaug J.

An evaluation of proximal surface cleansing agents.
Wolffe GN.

Efficacy of plaque-removal using interdental brushes and waxed dental floss.
Bergenholtz A, Olsson A.

Interproximal tooth morphology and its effect on plaque removal.
Smukler H et al.

Interproximal tooth cleansing of abutment teeth and pontic design.
Kocher T et al.

A comparison of proximal plaque removal using floss and interdental brushes.
Kiger RD et al.

Comparison of different approaches of interdental oral hygiene: interdental brushes versus dental floss.
Christou V et al.

Comparison between manual and mechanical methods of interproximal hygiene.
Schmage P et al.

Home oral hygiene revisited. Options and evidence.
Sicilia A et al.
Clinical trial of a novel interdental brush cleaning system.
Jared H et al.

Comparison of interdental cleaning methods: a randomized controlled trial.
Jackson MA et al.

In vitro-cleaning efficacy of interdental brushes with different stiffness and different diameter.
Wolff D et al.

Efficacy of interdental plaque control aids in periodontal maintenance patients: A comparative study.
Rösing CK et al.

Interproximal gingivitis and plaque reduction by four interdental products.
Yost KG et al.

A comparison of the efficacy and ease of use of dental floss and interproximal brushes in a randomised split mouth trial incorporating an assessment of subgingival plaque.
Noorlin I, Watts TL.

Plaque and gingivitis in the elderly: a randomized, single-blind clinical trial on the outcome of intensified mechanical or antibacterial oral hygiene measures.
Schiffner U et al.

The efficacy of interdental brushes on plaque and parameters of periodontal inflammation: a systematic review.
Slot DE et al.

Current concepts in toothbrushing and interdental cleaning.
Claydon NC.

Direct and indirect effects of interdental hygiene in a clinical trial.
Tu YK et al.

The use of interdental brushes along with toothbrushing removes most plaque.
Rasines G.
Plaque control effectiveness and handling of interdental brushes during multibracket treatment – a randomized clinical trial.
Bock NC et al.

Recommendations by dental staff and use of toothpicks, dental floss and interdental brushes for approximal cleaning in an adult Swedish population.
Särner B et al.

Encouraging client compliance for interdental care with the interdental brush: The client’s perspective.
Imai PH, Hatzimanolakis PC.

Interdental brush in Type I embrasures: Examiner blinded randomized clinical trial of bleeding and plaque efficacy.
Imai PH, Hatzimanolakis PC.

Comparison of interdental brush to dental floss for reduction of clinical parameters of periodontal disease: A systematic review.
Imai PH et al.

Efficacy of interdental mechanical plaque control in managing gingivitis – a meta-review.
Sälzer S et al.

Comparison between two interproximal cleaning procedures in periodontitis patients: A six-month, single-blind, randomised controlled clinical trial.
Schmidt B, Jentsch H.

Primary prevention of periodontitis: managing gingivitis.
Chapple IL et al.

The effectiveness of conically shaped compared with cylindrically shaped interdental brushes – a randomized controlled clinical trial.
Larsen HC et al.
